ST. PHILIP'S COLLEGE ANNUAL ASSESSMENT DAY REPORT

INSTITUTIONAL STUDENT LEARNING OUTCOMES, 2022 - 2023
ST. PHILIP'S COLLEGE

St. Philip's College Annual Assessment Day Report May 5, 2023

Introduction

Following successful virtual presentations and subsequent Assessment Day activities, the 2022 – 2023 Annual Assessment Showcase occurred via zoom on April 14, 2023 with participation from academic department faculty, chairs, and deans. This report serves as dissemination of Institutional Student Learning Outcomes Assessment Day results to maintain transparency and promote continuous discussion and improvement. Assessment Day was conducted in three separate activities: Calibration Training (completed by Feb. 9), Individual Assessment (Feb. 10 – Feb. 16), and Consensus Scoring Day (Feb. 17). Assessment Day activities involved 59 faculty assessors and department chairs from all five Arts and Sciences departments.

Institutional Process

In order to maintain compliance and accountability, St. Philip's College assesses Institutional Student Learning Outcomes (ISLOs) adopted from the Texas Higher Education Coordinating Board's competencies/objectives for general education core curriculum. These competencies include:

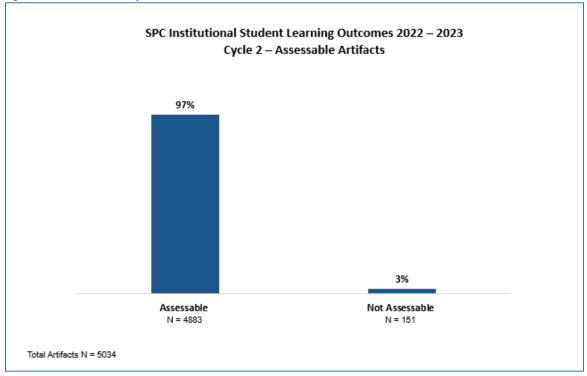

- Critical Thinking Skills (CT) creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information
- Communication Skills (COM) effective development, interpretation and expression of ideas through written, oral and visual communication
- Empirical and Quantitative Skills (EQS) manipulation and analysis of numerical data or observable facts resulting in informed conclusions
- Teamwork (TW) ability to consider different points of view and to work effectively with others to support a shared purpose or goal
- Social Responsibility (SR) intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities
- Personal Responsibility (PR) ability to connect choices, actions and consequences to ethical decision-making

St. Philip's College uses a 2-year assessment cycle. Assessed in 2022-2023, Cycle II **included Empirical and Quantitative Skills, Personal Responsibility, Social Responsibility**, and **Teamwork**; Personal Responsibility is assessed *every* cycle as part of the institution's Quality Enhancement Plan – Ethical Decision-Making. The cycle is comprised of artifact collection and submission during the fall semester, followed by Calibration Training and Assessment Day activities in the spring semester. Students produce artifacts (student assignments) in all general education courses, and faculty submit this work for randomly selected courses. Subsequently, departmental faculty assess these artifacts to determine learning outcome proficiency from the following levels: skillful, emerging, or not demonstrated; (i.e., Communications and Learning faculty assess courses from their departmental disciplines, et. al.).

Assessment Day Results 2022 - 2023

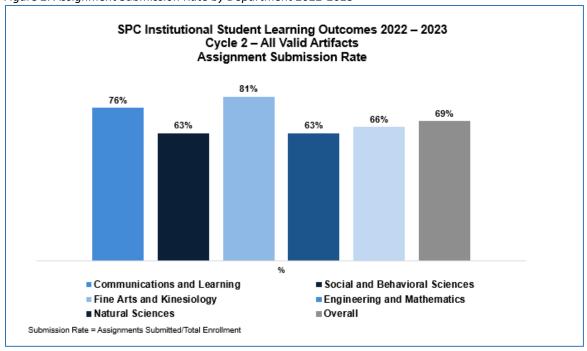

The Coordinator of Measurement and Evaluation shared the following overview of Institutional Student Learning Outcomes and results with SPC Faculty, Department Chairs, and Deans from across the college on April 14, 2023 via zoom (Appendix A). In 2022-2023 there were a total of 5,034 artifacts for assessment. Out of the 5,034 artifacts, there were 4,883 valid assessments and 151 were not assessable.

Figure 1. Assessable Artifacts 2022-2023

The submission rate of assessable artifacts (student assignments) by department were: Fine Arts & Kinesiology, 81%; Communications and Learning, 76%; Natural Sciences, 66%; Engineering and Mathematics, 63%; and Social and Behavioral Sciences, 63%. The overall assessable assignment rate was 69%.

Figure 2. Assignment Submission Rate by Department 2022-2023

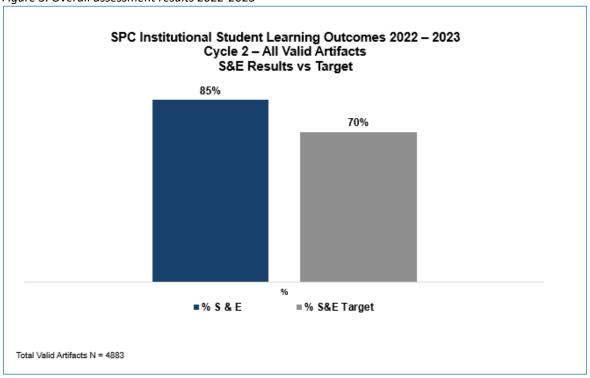

Discussion of the Cycle II 2022 – 2023 results for Critical Thinking, Communication, and Personal Responsibility followed.

2022 - 2023 Cycle II Overall Results

As shown in Figure 3, overall skillful and emerging (S + E) results for 2022 – 2023 Cycle II exceed the 70% target by 15.0%. Figure 4 displays longitudinal trends across Cycle II. Although there was initial decline in Cycle II results from AY 2014-2015 to AY 2018-2019, overall results remained above target. Cycle II results increased 6% from academic year (AY) 2020 to 2021 to AY 2022 and AY 2023 (current year).

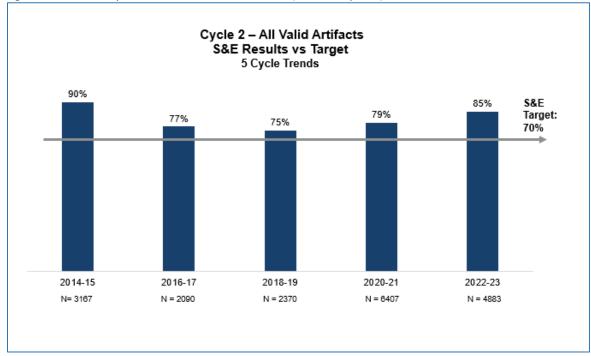

Figure 4. Trend analysis – overall assessment results (5 Year – Cycle II)

2022 – 2023 Cycle II Student Learning Outcome Results

Figures 5 through 9 feature Student Learning Outcomes (SLOs) by Core Competency. Figure 5 shows all Skillful and Emergent (S&E) results by competency. Seen in Figure 6, all SLOs for Empirical and Quantitative Skills exceed the 70% target.

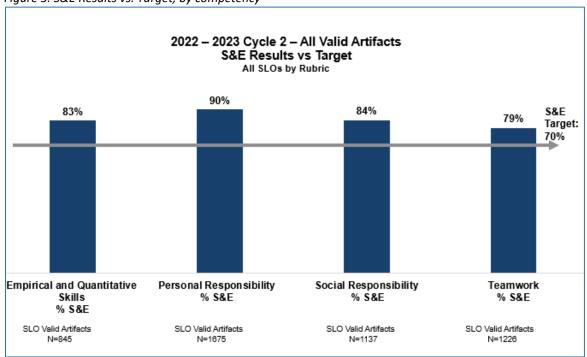

Figure 5. S&E Results vs. Target, by competency

Figure 6 Empirical and Quantitative Skills Outcomes

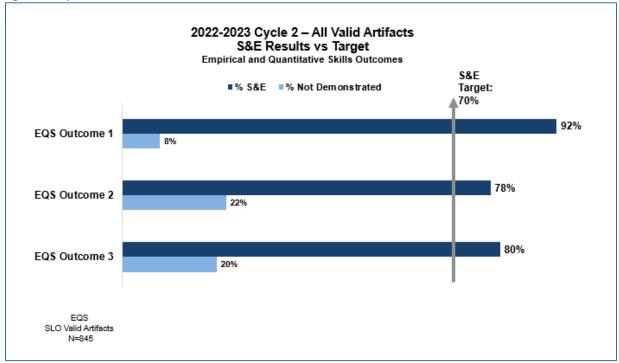

Figure 7 presents Personal Responsibility SLO results. As shown, all 3 SLOs (SLO1 Ethical Issues, SLO2 Perspectives, and SLO3 Values) demonstrated Skillful and Emerging averages greater than 80%.

Figure 7. Personal Responsibility

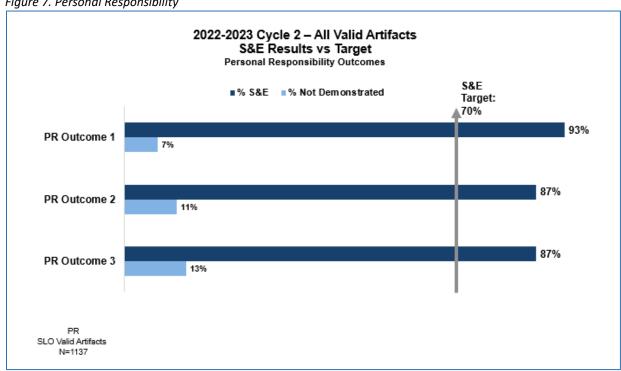

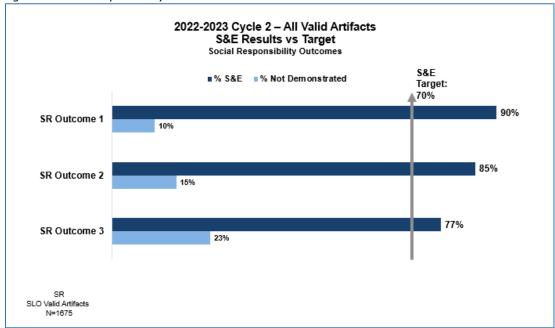

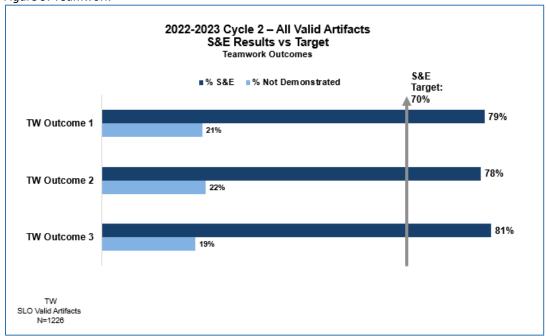

Figure 8. Social Responsibility

Displayed in Figure 8, Social Responsibility SLO1 (Intercultural), features the highest average Skillful and Emerging score for this assessment cycle at 90%. Students performed higher in SLO1 than SLO2 and SLO3. SLO2 (Civic Knowledge) scored above the target at 85%, and SLO3 (Communities), scored at 77%.

Displayed in Figure 9, Teamwork SLO3 (Self-Management), features the highest average Skillful and Emerging score for this assessment cycle at 81%. SLO1 (Contribution) scored above the target at 79%, and SLO2 (Cooperation), scored at 78%.

Figure 9. Teamwork

2022 - 2023 Cycle II Instructional Method Analysis

Annual ISLO assessment random sample includes general education courses offered through divergent instructional methods. Figures 10 – 14 display data and results by face to face, fully distance, Hybrid/Blended course, and Zoom/Video/Broadcast TV instructional methods. Figure 10 (below) addresses the percentage included by instructional method. Fully distance accounted for half of all assessments completed (50%).

Figure 10. Percent of Courses Sampled by Instructional Method

As seen in Figure 11, Empirical and Quantitative Skills overall SLO results differed by instructional method, with Hybrid/Blended course results exceeding all other instructional methods for SLO1 (Identify and Collect Data) and SLO2 (Manipulation of Data). SLO3 (Analyze Data and Draw Informed Conclusion) demonstrates a highest percent of 90% in Fully Distance Education courses. Face to Face courses scored as the second highest in all three SLOs with percentages of 93% for SLO1, 80% for SLO3, and 78% for SLO2. Zoom/video Tape/DVD/Broadcast TV results fall below the 70% target in SLO2 by 18%.

2022-2023 Cycle 2 - All Valid Artifacts S&E Results vs Target EQS Outcomes by Instructional Method ■ Face to Face ■ Fully Distance Education Course ■ Hybrid Blended Course Zoom/VideoTape/DVD/BroadastTV S&E Target: 70% 93% 89% EQS Outcome 1 100% 94% 78% EQS Outcome 2 82% 80% 90% EQS Outcome 3 73% 52% EQS SLO Valid Artifacts N=845

Figure 11. Empirical and Quantitative Skills SLO Comparison by Instructional Method

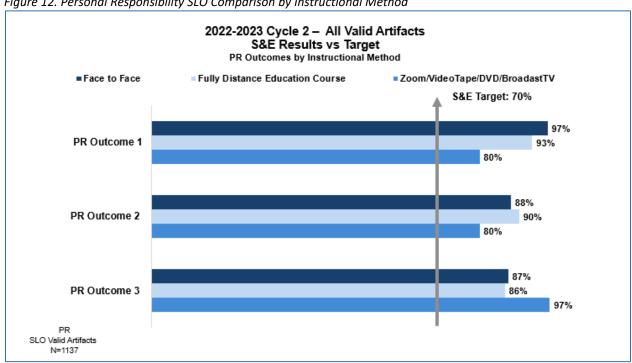

Figure 12 reveals highest results for Personal Responsibility SLO1 – SLO3 in different instructional methods. For SLO1 (Ethical Issues), there is a low deviation between face to face at 97% and fully

distance instruction at 93%. However, there is a considerably lower score in Zoom/Video Tape/DVD/Broadcast TV that is 13% lower at 80%. For SLO2 (Perspectives), there is a considerably low deviation between fully distance instruction at 90% and face to face at 88%, and Zoom/Video Tape/DVD/Broadcast TV I sonly lower by 8%. SLO3 (Values) has the highest in Zoom/Video Tape/DVD/Broadcast TV with 97%, whereas Face to Face and Fully Distance Education courses only vary by 1%. All results fall above the 70% target.

Addressed in Figure 13, Social Responsibility shows consistent results with face to face having the highest percentages (90%, 84%, 85%), Fully Distance Education instruction second across all SLOs (89%, 85%, 75%), and the lowest in Zoom/Video Tape/DVD/Broadcast TV (89%, 67%, and 56%. Zoom/Video Tape/DVD/Broadcast TV results fall below the 70% target in SLO2 (Civic Knowledge) by 3%, while there is a considerably lower score in SLO3 (Communities) by 14%.

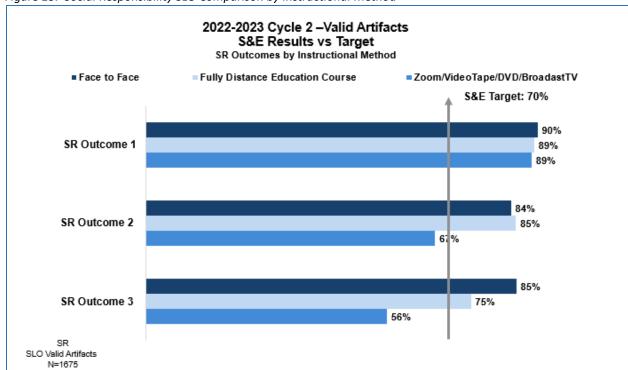

Figure 13. Social Responsibility SLO Comparison by Instructional Method

Figure 14 reveals a 100% score in hybrid blended instruction for SLO1 (Teamwork), with 91% in both SLO2 (Cooperation) and SLO3 (Self-Management). Fully distance instruction consistently scored second across the three SLOs at 81%, 83%, and 85%. All results fall above the 70% target.

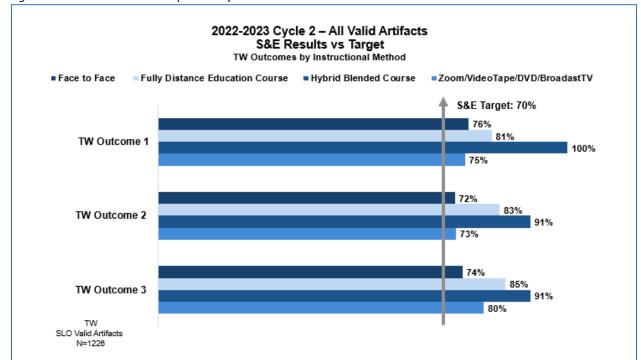

Figure 14. Teamwork SLO Comparison by Instructional Method

2022 – 2023 Cycle II Departmental Results by Student Learning Outcome

Annual ISLO assessment random sample includes general education courses offered by all Arts and Sciences Departments: Communications and Learning (C&L), Engineering and Mathematics (E&M), Fine Arts and Kinesiology (FAKIN), Natural Sciences (NS), and Social and Behavioral Sciences (SBS). Figures 15 – 18 display data and results by core competency and department. Figure 15 (below) addresses Empirical and Quantitative Skills overall Skillful and Emerging by department. Unfortunately, all departments did not meet the 70% target across the three SLOs, falling short by 3-7%.

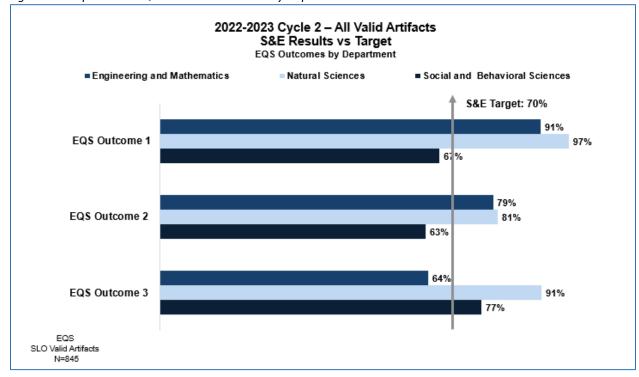

Figure 15. Empirical and Quantitative Skills SLOs by Department

As seen in Figure 16, Personal Responsibility Skillful and Emerging results exceeded the 70% target across all SLOs and departments, and all SLOs surpassed 80% in all departments.

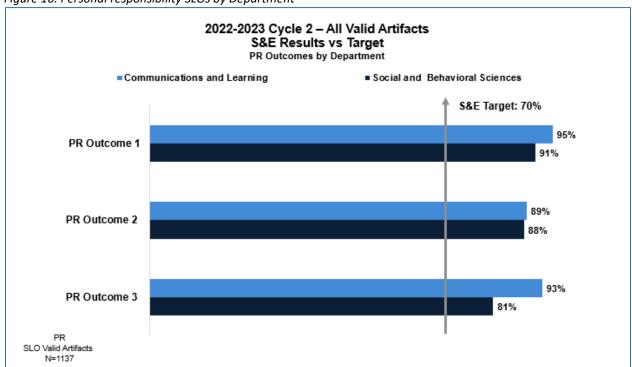

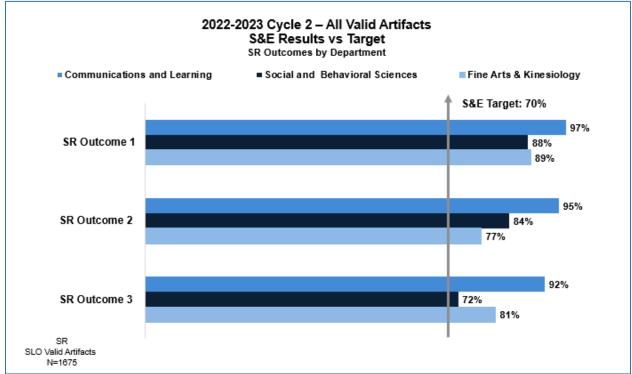

Figure 16. Personal responsibility SLOs by Department

Shown in Figure 17, Social Responsibility results across all departments surpassed the target in all SLOs. It is worth noting that Communications and Learning had exceedingly higher results in all SLOs.

Figure 17. Social Responsibility SLOs by Department

Shown in Figure 18, Teamwork results across all departments surpassed the target of 70% in all SLOs.

2022-2023 Cycle 2 - All Valid Artifacts S&E Results vs Target TW Outcomes by Department Natural Sciences ■Fine Arts & Kinesiology Communications and Learning S&E Target: 70% 80% TW Outcome 1 76% 85% 79% TW Outcome 2 79% 84% TW Outcome 3 78% 76%

Figure 18. Social Responsibility SLOs by Department

2022 – 2023 Off-campus Instructional Sites (OCIS)

TW SLO Valid Artifacts

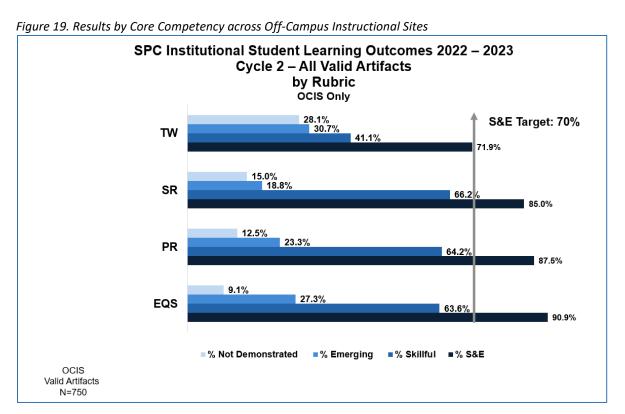

Figure 19 features overall core competency results for Off-Campus Instructional Sites (OCIS). As displayed, targets were exceeded by 1.9 – 20.9% across all competencies. OCIS included in the assessment: Brackenridge DC/ECHS, Cole HS, Judson HS, Lytle HS, Memorial ECHS, Seguin DC/ECHS, and Veterans Memorial HS.

Improvements 2022 - 2023

Accountability forms were gathered electronically. This made it easier for Department Chairs to ensure their faculty submitted the forms. For the first time, Assessment Day was separated into three days/activities for everyone's convenience: Calibration Training Day (held by IPRE during department meeting), Individual Assessment (Assessors had 1 week to complete), and Consensus Scoring Day. There was excellent participation in all activities held. Few one-on-one sessions were held for those with extenuating circumstances. A survey to measure satisfaction regarding Assessment Day Activities was distributed to Assessors, Department Chairs, and Dean. There were 54 responses received. The results were as follows: 39 of 54 were Satisfied (72%), 12 of 54 were Neutral (22%), and 3 of 54 were Dissatisfied (6%).

New electronic survey forms were developed for Closing the Loop Action Plans. The electronic survey forms allowed for more faculty feedback and interaction. All course faculty were required to submit the form, even if they met the 70% target. The faculty feedback forms were to be completed by all 64 faculty who had a course assessed during this cycle and provided the opportunity for faculty to develop specific action plans to address any shortcomings or intended improvements. The submission rate of faculty feedback forms was 84%. The Discipline Leads survey form allowed the 18 Discipline Leads to complete one form per discipline (not by course) as well as collecting more general action plans from discipline leads that can be implemented throughout discipline courses. The submission rate of the Discipline Leads survey form was 94%. Chairs provided great feedback and were part of the process of improvements during the 2022-2023 cycle.

Challenges 2022 - 2023

The reliability of assessment results may be questionable due to a high non-submission of student assignments for certain courses. Nine out of sixty-four courses had less than 50% submission rates based on assignment submission/total enrollment (14% of courses). This cannot be compared to previous years as it was not previously tracked. On Individual Assessment Day, it was difficult to get assignments out to faculty right after they checked-in via Zoom since faculty were constantly dropping in during the morning hours. Next year, we will have one morning session and one mid-day section during set times. This will allow IPRE to send out assessor assignments to attendees after each session.

Given the expansion of sampling, a single day for assessment is no longer feasible; Engineering and Mathematics (E&M) revised protocol and timeline, which was submitted and discussed during the Showcase. It was determined that E&M artifact submission dates would not be feasible for other departments, but maintaining the IPRE deadline for the Full 16 week and Flex 2 courses in late November will continue to accommodate these departments. The Flex 1 deadline will remain in October. This will allow the completion of the fall artifact collection in advance of a multi-day artifact assessment in spring: Day 1: Calibration Training; Day 2: Individual Assessment; Day 3: Consensus Scoring.

Additional Showcase Results and Discussion 2022 – 2023

Feedback and strategies for improvement highlighted faculty modifying assignment due dates to be able to meet the IPRE deadline for assignment submissions. Gaps were seen as artifact collection commenced in fall 2022; specifically, some faculty reported problems with having assignments completed by the earlier submission deadline. Faculty Assessors reported to be very satisfied with the training, assistance, and support provided during the assessment cycle. They particularly liked having Assessment Day activities separated into three separate activities/days, rather than everything completed in one day. They also liked having the flexibility to complete their individual assessments on their own in one week, and having the Assessment Day activities held via Zoom vs. in person.

Student Learning Outcomes

Core Objectives Assessed 2022 – 2023 (Cycle II)

Empirical and Quantitative Skills: St. Philip's College students will manipulate and analyze numerical data or observable facts resulting in informed conclusions.

Personal Responsibility: St. Philip's College students will demonstrate the ability to connect choices, actions, and consequences to ethical decision-making.

Social Responsibility: St. Philip's College students will demonstrate intercultural competency, civic knowledge and the ability to engage effectively in regional, national and global communities.

Teamwork: St. Philip's College students will demonstrate the ability to work effectively with others to support a shared purpose or goal and consider different points of view.

Assessment Sample Fall 2022

2022-2023

ASSESSMENT PROCESS CHANGES IMPLEMENTED THIS YEAR

Assessment Day Activities 2022-2023

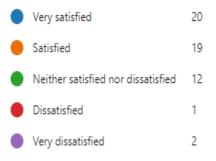

For the first time, held as three separate days/activities:

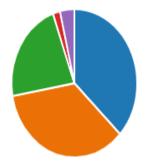

- Calibration Training Day
 - With IPRE during department meeting
- Individual Assessment (1 week)
- Consensus Scoring Day

2022-2023 Assessment Day Activities Satisfaction Feedback Results

54 Responses Received

Overall:

39 of 54 Satisfied (72%)12 of 54 Neutral (22%)
3 of 54 Dissatisfied (6%)

Closing the Loop 2022-2023

Feedback and Action Plans

- Provided online form for Course Faculty to complete
 - Feedback was easily downloaded and sent to Discipline Leads
 - Included all questions and responses
- Provided online form for Discipline Leads to complete
 - Discipline Leads completed their form by discipline (not course), as agreed by Department Chairs.
 - Course Faculty feedback reviewed and taken into consideration when completing

INSTITUTIONAL LEARNING OUTCOMES

2022-2023

IMPROVEMENTS AND CHALLENGES

IMPROVEMENTS

- Accountability Forms were gathered electronically this year, which made it easier for Chairs to check to ensure everyone had submitted.
- Assessment Day activities separated for everyone's convenience
 - Excellent participation rate in all activities held
 - Few one-on-one sessions held
- Social and Behavioral Sciences piloted having all their FT faculty serve as assessors (20 assessors).
 - Resulted in less assignments for each faculty to assess (about 20-30 each)
- Electronic feedback forms were developed for Course Faculty and Discipline Leads
- All course faculty required to provide feedback and action plan, regardless of results
 - 11 of 64 course faculty did not provide feedback/action plan (17%)
 - 4 Fall faculty were not teaching or on leave Spring 2023 (no feedback) (6%)
- Discipline Leads completed feedback/action plan in <u>one form</u> for <u>discipline</u>, not per course
 - Only 1 of 18 Discipline Leads did not provide feedback/action plan (0.05%)
- Chairs provided great feedback and were part of the process of improvements during the 2022-2023 cycle.

CHALLENGES

- Reliability of assessment results due to high non-submission of student assignments for certain courses
 - 9 out of 64 courses had less than 50% submission rates based on assignment submission/total enrollment (14% of courses)
- Getting assignments out to faculty assessors during drop-in times of 8am 5pm.
 - All showed up in the morning between 8am -10:30am (We have morning people! ©)
 - Next year we will have 2 scheduled sessions (one at 8:30am, one at noon)
- Getting all <u>Course Faculty</u> to complete their feedback/action plan forms.
 - Probably due to the change of being required this year
 - Initially: Getting quality feedback.
 - 11 of 64 course faculty did not provide feedback/action plan (17%). We need 100% next year.
 - Course Faculty not providing feedback/action plans for Discipline Leads to include in theirs, makes it harder for Discipline Leads.

FOR NEXT YEAR

- Upgraded iRubric (Amazing news!)
 - iRubric will be able to pull completed student assignments from Canvas.
 - Cuts out course faculty and department chairs from having to provide and upload assignments into iRubric.
 - Students will be able to be completely anonymous, no Banner number will be needed.
 - IPRE will receive training on new features.
- Earlier due dates will remain
 - We need to make sure courses being assessed complete their assignments by the deadline.
- Accountability Forms will remain electronic for Fall 2023
 - Quick "How To" will be provided to clear up any misunderstandings of directions
- All other electronic forms created will also remain

Contributors and Participants: Thank you!

The following were key contributors to the success of this project:

- Vice President of Academic Success
- Dean of Arts & Sciences
- Arts & Sciences Department Chairs
- Course Faculty and students (developing artifacts)
- Faculty Assessors
- Discipline Leads

Special Thank You to:

- Hayley Aniol, IPRE for filling in for me when needed
- Fine Arts and Kinesiology for having over **80%** of total student assignments submitted
- Communications and Learning for having over **75%** of total student assignments submitted
- Social and Behavioral Sciences for having all Full-Time faculty members serve as assessors
- Natural Sciences for being innovative in their assignment collection process
- Engineering and Mathematics for piloting the hybrid calibration training (you were the first ones!)

Final Thoughts/Questions?

Please remember to complete the Assessment Showcase Feedback Survey Form:
