- **Clear Bags – (Plastic, vinyl, or PVC) 12" x 6" x 12"**

Exceptions:

Diaper Bags

- Bags being labeled a "diaper bag" must be paired with a guardian and child, upon entry and contain diaper-changing related items, such as diapers, wipes, childcare needs, etc. Diaper bags are not subject to the 12"x6"x12" sizing, but will be screened prior to entry.

Medically Necessary Bags

- The Medically Necessary Bag exception is only extended to bags that are specifically necessary/required for medical equipment and accommodations that cannot fit within the small bag or clear bag sizing, such as a lunchbox with ice pack to keep chilled medication, oxygen tank carrier/bag, large bag to carry a lactation pump, etc.
- Medical related items that can fit into the small bag and clear bag sizing will not qualify for a larger medical bag exception, and should be brought in a bag that meets the small bag or clear bag requirements.
- Examples of medical items that will not qualify for a Medically Necessary Bag outside of the clear bag and small bag specifications, include but are not limited to: medication, pill bottles, epi-pens, inhalers, syringes, snacks related to diabetic needs, etc. Items that do not

require a bag larger than 12" x 6" x 12" should be brought in a bag that meets the small bag and/or clear bag specifications.

Without exception, all bags are subject to search and will be screened prior to entry, including medically necessary bags and diaper bags. Please refer to the graphic below or [download the Bag Policy Flyer](#) for more information.
