National Quality Award

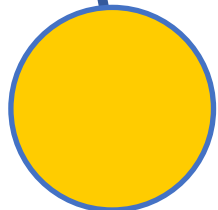

2018 Award Recipient

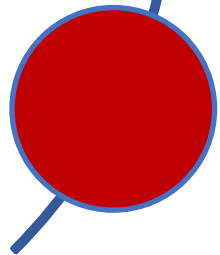

Topics we will cover in this webinar include:

Creating different types of quizzes

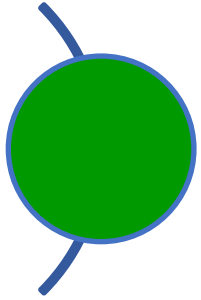

Types of questions and restriction options

Grading and weighting quizzes

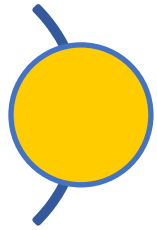

## Canvas Quizzes Tool

The Canvas Quizzes Tool allows you to create different types of graded/ungraded surveys and quizzes that are synched with your Gradebook.

### **Key features:**

- Easily Organize and Grade Online Submissions
- Create Surveys or Quizzes
- Choose from 11 different question options
- Create Due Dates and Restrictions
- Weight Grades

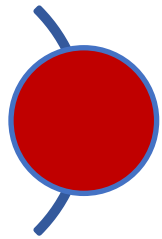

## Selecting Settings

- **Be Intentional** – Select settings that further your instructional goals
- Consider the restriction options you need to use (time limit, number of attempts, lockdown browser, etc.)
- Provide thorough **instructions** for your students to be successful. Be sure to include **time limits** and if additional **resources** are needed

### Grading and Weighting Quizzes

Canvas Quizzes are already synched to your Gradebook, making grading **so** much easier!

- The **Assignments Page** allows you to create Groups to weight assignments.
- You can separate **smaller quizzes** from **larger exams** to assign different weights
- **Speed Grader** provides an easy-to-use interface for organizing and grading your student's work.
