## Patsy Jones

PARALEGAL STUDIES

*“The bad news is time flies. The good news is you’re the pilot.”*

– Michael Altshuler

Patsy Jones grew up in Mounds, Oklahoma but later, she came to claim Texas as her home as she moved to San Antonio before high school. She has continued to pursue her college career despite having to take a break from 2016 to 2021 due to financial hardships. She continued her studies while working full time and still managed to be on the President’s or Dean’s List every semester.

Patsy has been diligently working throughout her life to achieve her goals. She has always aspired to become an attorney, but later realized her calling as a paralegal once she began studying in her field. She is the first of her family to graduate from college with a degree.

Patsy will graduate with her associate degree in paralegal studies in May 2023. She cannot wait to walk the stage and cross the metaphorical finish line. She has already gained a job through her internship she started with San Antonio College and will continue to work at her firm as a paralegal.
