Pedro Gutierrez Posselt

COMMUNICATION DESIGN

*“A gem cannot be polished without friction,
nor a man perfected without trials.”*

– Lucius Annaeus Seneca

Pedro Gutierrez Posselt was born in Juarez Chihuahua, Mexico, a small city next to the Texas border near El Paso. When he was eight years old, he and his family fled Mexico due to the ongoing threats of the Mexican cartel and immigrated to El Paso in 2008.

Adjusting to a new environment was challenging for Pedro, but he found solace in the arts as a means of coping with the problems his family faced. Pedro resided in El Paso for seven years. In 2015 he moved to San Antonio looking for growth and opportunity. During this time, he graduated high school and received his U.S residency, focusing most of his time after high school working and picking up classes in his spare time.

After some self-reflection Pedro decided to take the next step and pursue a career in design communication at San Antonio College. Since enrolling, Pedro has dedicated himself to developing his creative skills and has designed the winning poster for the San Antonio College library. Additionally, Pedro was named to the President’s List during the fall 2022 semester. Upon graduation, Pedro intends to continue his studies and hone his graphic design skills further.
