Sarahi Cano Castillo

DENTAL ASSISTING PROGRAM LEVEL 1 CERTIFICATE

“The pessimist sees difficulty in every opportunity. The optimist sees opportunity in every difficulty.”

Winston Churchill

When she first started school in Mexico, her dream was always to become an orthodontist, and here at San Antonio College she was given the opportunity to join the Dental Assisting program.

There, she was assigned to a general dental office to practice the skills that she had learned in the program. During her time in the dental office, she assisted on root canals, fillings, composites and many other procedures that she enjoys being part of. Her experience in this program has helped her succeed academically with her dream of becoming an orthodontist.

She’s learned to be more efficient in her techniques and most importantly, has learned the responsibilities that are crucial in a dental office. In the end, she is leaving this program with wonderful experience and the desire to continue working educationally and professionally to become the orthodontist that she dreamed of being since she was little.
