

# 2025 *Distinguished* GRADUATE

## **BOBBIE ROCHELLE FEHR** | Biology: Pre-Nursing

Bobbie Fehr is a proud first-generation college graduate, a devoted mother, and a resilient fighter. She has lived in San Antonio for six years with her husband and daughter, and is a member of the National Society of Leadership and Success.

Her journey into higher education was inspired by her daughter, who was born at just 24 weeks, weighing only one pound and two ounces. After spending 173 days in the Neonatal Intensive Care Unit, the care and compassion shown by the NICU nurses left a lasting impression on Bobbie — and sparked her desire to pursue a career in nursing.

While working toward her degree, Bobbie faced a life-altering challenge: a thyroid cancer diagnosis. Despite the obstacles of surgery and treatment, she remained determined to reach her goals. Today, she is one and a half years cancer-free and proud to have earned her degree in biology with a pre-nursing focus.

Bobbie's dream is to become a NICU nurse so she can support and care for families and babies in the same way nurses once cared for hers. Her story is one of strength, purpose, and a heartfelt commitment to giving back through a career of healing and hope.

**“If you have a dream, don’t let anybody **take it** away.”**
